2. Review of Area of Operations

- a. Security of billeting: The Grand Hyatt Erawan Bangkok is located at 494 Rajdamri Road, Rajprasong intersection, approximately 35 minutes from Suvarnhabumi International Airport. The hotel provides minimal stand-off protection from car / truck bombs which may detonate from the adjoining main thoroughfare. The hotel is not equipped with shatter-proof glass in the lobby areas. The hotel has a state-of-the art closed circuit television (CCTV) surveillance system which consists presently of 120 cameras. All entrances to the hotel, the twelve elevators, all guest floors and some public areas have CCTV coverage. There are two levels of car park in the hotel basement. 30 Hotel security personnel, both static and roaming are posted in the lower lobby, main lobby, at the entrances and receiving areas. Security personnel also patrol the guest floors and maintain a vehicle check point to the car park for all vehicles entering the hotel or parked outside the main entrance to the hotel. Two fire exits of the main building are readily accessible; heat detectors, smoke detectors and a sprinkler system are installed. In case of electrical failure the backup generators will be activated automatically within 6 seconds. A Helipad with a capacity of five tons is available on the roof.
- b. Security of conference/work areas: N/A
